

Communications

Each project funded by the *Creating Safer Space* network will have its own page on our [website](#).

It will include the title of the project, a brief summary, the names of the Investigators and Project Partners, and at least one photo. You are also welcome to include other information, for example:

- Further information about the research team (photos, role in the project, a short blurb that describes the researchers' previous work).
- Further information about project partners.
- Information about activities or events.
- Information about outputs or outcomes.
- Photos or videos.
- Links to social media or external websites.

Please contact creating-safer-space@aber.ac.uk with any information that you would like us to upload, and with at least one photo. This can be a photo to show similar work carried out by your team in the past, or it can be a landscape photo of the region that you will be working in. If you do not have your own photo, you can send us a link to an appropriate Creative Commons photo. Please go to [Flickr](#), and select a photo which states 'Creative Commons – Attribution No Derivatives' ideally in size 1920 x 1018.

Of course, you are also welcome to communicate your project on your organisation's own website, or in any other way you deem suitable.
